

NICOLAS CORBEELS

Consultant – Project Manager

"Bridging construction & IT"

PROFILE

Experienced Project Manager in IT, Logistics and Facility Management.

Long term employee in a Transport SME, I got the opportunity to manage various projects such as development of custom applications for operational purposes or construction of logistics buildings.

Curiosity, Analysis and Open mind lead me to identify improvement paths in multiple processes. I like to rationalize complex situations and to deliver the best suited solutions.

I grant importance to trust, professionalism and efficiency.
